Offensive Security Practitioner specializing in penetration testing, malware analysis, and red team fundamentals

Top Skills:

- **Penetration Testing** – Hands-on experience across network, web, and social engineering engagements using Nmap, Burp Suite, and Metasploit, following OWASP methodology. Practiced through personal labs, CTF competitions, and a real engagement securing a university club's website.
- **Web Application Security** – Comfortable identifying and exploiting OWASP Top 10 vulnerabilities (XSS, SQLi, SSRF) with Burp Suite, SQLmap, and ffuf, and documenting findings in reports a non-technical stakeholder can act on.
- **Scripting & Automation** – Python and Bash for recon and exploitation tooling; also build and ship full applications (see github.com/cityangel1), which gives me an edge in understanding how the systems I'm testing are actually built.
- **Leadership** – Vice Chair of NYEKUSA, a university club, after starting as Secretary General – experience translating technical judgment into decisions a team can act on.

Work Experience

- **Africa Internet Summit CTF – Competitor**
Position 4 of 259 competitors, scoring 11,700 points. [View scoreboard](#)
- **Ongoza Cyber Hub – Offensive Security**
Conducting offensive security operations including passive and active reconnaissance, network penetration testing, web application testing, and exploitation.
- **NYEKUSA web Pentesting** – When I arrived at NYEKUSA, I found a gap in their social media presence. I created a website for the organisation. I initially wanted the user to login. After pentesting the website, I found a vulnerability that could allow the user to bypass authentication. As such I removed the functionality and just it simple.

Education

- **BSc. Computer Science**, 2024–Present, Dedan Kimathi University of Technology
- **Ethical Hacking**, 2025, Cybershujaa
- **Strategic Management**, 2025, Saylor Academy
- **Ethical Hacking**, 2024, Cisco Networking Academy
- **KCSE – B+**, 2020–2023, Kanjuri Boys High School
- **KCPE – 365 Marks**, 2019, Ngunguru Primary School
